

## New Product - Steering Gear TAS Series Input Shaft Seal Kits

Update #2388

Attention: Dayton Parts' Distributors and Business Partners.

Dayton Parts introduces two new part numbers to supplement the remanufactured Steering Gear product line. This addition brings two popular seal kits (371-109A and 371-110A) that are used to repair the TRW/Ross TAS Steering Gear Input Shafts. Dayton Parts now has a full line of Remanufactured Steering Gears, as well as the seal kits you need to repair them. Let Dayton Parts be your supplier for all of your steering component needs.

**371-109A TAS Input Shaft Seal Kit - Minor**

**371-110A TAS Input Shaft Seal Kit - Major**

In stock at Harrisburg and Lewisville warehouses and ready to be added to your next regular stock order.
